SKILLS

Languages — Competent

JavaScript (ES5 & ES6), TypeScript, Python, HTML, CSS.

Tools & Platforms — Competent

Docker, Postman, Jira, Git, GitLab, Helm, CI/CD, Vitest, Jest, TestContainers, PostgreSQL, MySQL

Frontend:

React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Semantic HTML, Accessibility (WCAG), Redux, Tailwind CSS, Bootstrap

Frameworks & Libraries

Node.js, Express.js, React, Sequelize, Tailwind, Bootstrap

Methodologies

Microservices, REST APIs, GraphQL, Agile, TDD, Pair Programming, Integration Testing.

UI Engineering:

Reusable Component Development, Cross-Browser Compatibility, Performance Optimization, Design System Implementation, Figma-to-Code Development

PROFESSIONAL EXPERIENCE

Thoughtworks, Full Stack Developer

09/2022 – Present | Bengaluru, India

- Led full-stack development using React, Node.js, and TypeScript, delivering solutions for over **300K active users**.
- Increased unit test coverage from **85% to 97%** through systematic refactoring and pair programming.
- Reduced feature delivery time by **20%** by optimizing technical solutions and team efficiency.
- Implemented **Vitest** to streamline frontend testing and improve developer productivity.
- Engineered responsive interfaces that improved user satisfaction by **30%** via cross-browser compatibility.

PROJECTS

Government Fitness App, Full Stack Developer

01/2024 – 11/2025

A public-facing web application to track youth health metrics

- Developed a web application that tracks youth health metrics for over 300K daily active users, building a scalable back-end with Node.js and a dynamic UI with React.
- Collaborated with the DevOps team to set up Helm charts, reducing microservice deployment time by 20%. Additionally, I onboarded new team members and created technical documentation, cutting down client testing setup time by 30%.
- Pioneered an integration testing strategy using TestContainers, achieving 90% test coverage and resolving 4–6 bugs weekly.
- Ensured a seamless user experience and high application stability, which directly contributed to health checks and vaccinations for 70K school students.

AI-Powered Legal QA Bot (OpenNyai Mission), Frontend Developer

04/2023 – 11/2023

A QA Bot using AI for improved legal queries

- Led frontend development in a 5-member team (3 developers) for a Generic QA Bot, building intuitive and responsive UI with React, while collaborating with backend developers using Python.
- Integrated OpenAI's ChatGPT APIs and contributed to prompt engineering, enhancing the contextual relevance of AI responses and reducing user correction time by 25%.
- Collaborated directly with clients to gather requirements, resulting in a product that met 95% of initial user needs and streamlined QA workflows.
- Engineered a production-ready MVP in just 4 weeks, driving early user feedback and accelerating development cycles.

Middleware Open Source Mobility Solution, Full Stack Developer

04/2023 – 11/2023

Middleware application for seamless mobility service integration

- Developed full-stack components for a greenfield middleware application in the mobility domain using React and Express.js, enabling seamless integration between diverse mobility services
- Designed and implemented RESTful APIs adhering to the ONDC Beckn Protocol, ensuring standardized, reliable data exchange across partner platforms
- Pioneered unit testing strategy for the project, achieving 97% test coverage, significantly improving code quality and setting a foundation for maintainable, scalable development

EDUCATION

B.Tech in Computer Science and Engineering,

06/2018 – 06/2022 | Kerala, India

Govt. Model Engineering College, APJ Abdul Kalam Technological University

Lead – Placement Cell: Managed a 14-member team to facilitate campus recruitment; successfully interfaced with HRs to coordinate placement drives for the batch.

AWARDS

Grace Hopper Celebrations (GHC) Scholarship

2022

Awarded by AnitaB.org 🏆 for contributions to technology and gender equity.
